Cabin Height: 4'9"
Cabin Width: 4'10"
Cabin Length: 13'7"
Passengers: 6
Max Takeoff Weight: 12,500 LBS
Balanced Field Length: 3,820 FT
Landing Distance: 4,550 FT
Max Payload: 1,650 LBS
Avg. Cruise Speed: 361 KN
Fuel burn per hour: 143 GAL
Useable Fuel: 587 GAL
Service Ceiling: 45,000 FT

More About the Cessna Citation CJ2

The Cessna CitationJet/CJ series (Model 525) are American turboprop-powered light corporate jets built by the Cessna Aircraft Company in Wichita, Kansas. The Citation brand of business jets encompasses seven distinct "families" of aircraft. The Model 525 CitationJet was the basis for one of these families, which encompasses the CJ, CJ1, CJ1+, CJ2, CJ2+, CJ3, and CJ4 models. The Cessna Citation CJ2 (Model 525A) is a 5-foot stretch extension of the Cessna Citation CJ1 (Model 525) first delivered in the year 2000. The 525A comes in two forms, the original CJ2 and the newer CJ2+, which has updated avionics, increased performance, and FADEC controls. The CJ2+ was first delivered in April 2006.
